## *Sadar Namaskar,*

Mananiya P. Parameswarji has turned 90. Bharatheeya Vichara Kendram and the people of India who love and respect him have decided to celebrate his Navathi in a befitting manner.

Padmasree P Parameswaran, one of the senior pracharakas of RSS in India and the Founder Director of Bharatheeya Vichara Kendram, the centre of research for national reconstruction is an authority on ancient Indian wisdom, a prolific writer, researcher, and a visionary committed for the cause of national resurgence. He was the General Secretary and National Vice President of Bharatheeya Jan Sangh and former director of Deendayal Research Institute, New Delhi. Born in 1927 at Alappuzha district in Kerala, he had his B.A. Degree in History (Honours) with Distinction from University of Kerala. Then he dedicated himself for the cause of national reconstruction by joining the RSS as a Pracharak and during the days of draconian emergency he was deprived the freedom of speech and letters and was imprisoned for 18 months.

Being an intellectual warrior P. Parameswarji had the instinct and insight to identify and fight the anti national, negative, divisive, onslaughts unleashed by the left intellectuals and he succeeded in creating an atmosphere of awareness at the national level to resist the left waves and fill the national consciousness with swadesi spirit for the reconstruction of our great nation. Bharatheeya Vichara Kendram, a centre for national resurgence was established in 1982 by Parameswarji to promote nationalist thoughts among

the Keralites. It was followed by a compendium of research projects, national and international seminars, publication of books and journals. He was always happy to meet and exchange ideas of difference with eminent persons like Sri. E.M.S. Nampoothiripad and Sri. P. Govinda Pillai.

His intelligent expedition on the life and works of Swami Vivekananda and Karl Marx titled 'Marx and Vivekananda' is an excellent example of his insight and clarity of expression. His books like 'From Marx to Maharshi', Aurobindo the Prophet of Future, Sri Narayana Guru the Prophet of Renaissance, The Changing Society and the Changeless Values etc show his deep rooted stature in the national consciousness and

commitment to the cause of national reconstruction. He was prophetic in exposing the hollowness of the constructed concept of Kerala Model and later his exposition was shared by eminent economist Dr. Amartya Sen. Considering his erudite scholarship in the life and works of Swami Vivekananda he was invited to participate in the centenary celebrations of Swami Vivekananda's Chicago Address held in 1993. He is also the President of Vivekananda Kendram, Kanyakumari.

To mention a few from the list of awards received by Parameswarji, Hanuman Prasad Poddar Award, Kolkata in 1997, Amrita Keerti Puraskar, instituted by Mata Amritanandamayi Math, in 2002, Hindu Renaissance Award in 2010 are important. To crown all of these, considering his enthusiasm and endless efforts to reconstruct India on the traditional wisdom, the Nation honoured him with Padmasree in 2004.

**Bharatheeya Vichara Kendram,** the dream child of Parameswarji has conducted many national and international seminars like 'Gita and Modern Problems', 'Research for National Resurgence' and 'Integral Humanism' and eminent persons like

H.H. Dalai Lama, Swami Ranganadhananda, Swami Chinmayananda, Swami Gauthamananda, Swami Thejomayananda, Sri Sri Ravisankar, Baba Ramdev, Dr. E.C.G. Sudarsan, Dattopant Thengadi, K.S. Rao, Dr. Subrahmanyam Swami, Dr. Hamid Ansari, Michel Danino, Dr. David Frawley, Claude Alvaris, Francois Gautier, Arun Shourie etc. were part of these endeavours.

Bharatheeya Vichara Kendram plans to launch a year long programme, as part of Navati Celebrations in Kerala, in 2017. National and international seminars on subjects of national importance and cultural programmes will be held during the period. Conventions of academics, women, youth and seminar on Bhagavat Gita are on the design. Publication of complete works of P. Parameswarji in twenty volumes is also planned.
